

Like its larger sibling, the SESSION is a boat designed for liquid manipulation. At seven feet four inches in length it boasts the same performance characteristics as its big brother. Simply put, same class different SESSION.

- Length: 7'4"
- Width: 23.5"
- Planing Surface: 570 sq. in.
- Cockpit: Large 18.75 x 33.25"
- Volume: 41 gal.
- Kicker: 7'5"
- Weight: 32 lbs.

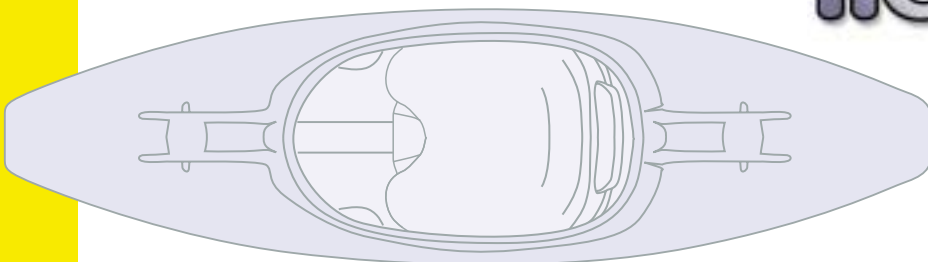

S P E C S

Key Features:

- Fastest planing surface to date
- 7.5 inches of kicker in the bow and stern
- True carve release chines
- Cinch Tight System
- Slicey ends
- Stiffy-Hull System
- Lots of foot room
- Stainless steel security bar
- Integrated wall supports
- Evenly distributed volume
- Adjustable seat and thigh braces
- Full outfitting kit

Benefits:

- Accelerates hull speed for optimum release
- Huge ollies and bigger blunts
- Increases edge speed for dynamic wave moves
- Thigh brace ratchet system for slick in seat adjustment, easy exit and maximum control
- Slicey cartwheels and easy cleans
- Stiffness, control, and safety
- Play longer and walk later
- Safety is good for the soul
- Increases lateral wall stability
- Easier transitions
- Custom fit for added comfort and extra control
- Includes hip pads for that custom fit
